PROFESSIONAL BACKGROUND AND EXPERIENCE

Cynthia Mare RN

07834 832442

Cynthia@fhconsult.co.uk

Cynthia is a qualified Children's nurse with extensive experience across the nursing field, having qualified in 2003. She has worked predominantly in the NHS in different settings including general children's wards, SCBU, surgical, Children's Assessment Unit, A&E, and Children's burns unit. She gained further experience with respite, palliative and end of life nursing while working in Children's Hospices. Cynthia then took a short career break to care for her family and then returned to practice in 2018.

Since then, Cynthia has more recently demonstrated her versatility in skills working across various highly reputable nursing agencies, supporting children in complex care packages throughout the North West. She is experienced with complex pain management, respiratory management, enteral feed regimes, seizure management, stoma care, catheter care, venepuncture and IV medication administration within a community setting.

Cynthia has proven herself to be an adaptable clinician completing clinical assessments as required to meet the needs of the individual. She works well under pressure and is able to prioritise her work well. She is confident with the challenges that nursing care, delivered in the home environment can present.

Cynthia joined FHC in April 2024 having been head hunted due to her observed excellent skills and knowledge base working with families and children under case management support. She demonstrated an interest in the case management industry and was already delivering much of the case manager role in her day to day activities. She has a clear understanding of statutory services provision, working with the wider MDT, liaising with treating consultants and maintaining excellent records. She also has an informed understanding of the complexities of running care packages within the community. Her clinical evaluation skills have evidenced her ability to transition her career into case management. She is familiar with rehabilitation planning and goals reviews which lends itself perfectly to the industry.

Cynthia is a friendly, approachable and professional individual who works with high standards of practice. She is fully committed to the role of case manager and is excited to be joining the team. Whilst new to case management, she had many of the required transferable skills and she has made a very positive transition into the sector. Cynthia is registered with NMC.
